GYM FOR ALL

FUTURES LEAGUE Beginner/Intermediate Level 1-4 (5-16yrs)

A revolutionary approach designed for recreational gymnastics and also accommodates a pathway into competitive gymnasts. It serves as a perfect starting point for those that have been doing gymnastics for some time who have mastered the basics. This program offers a structured progression through a levels system for gymnasts as they become more and more experienced. This program is tailored to provide a fun, positive, and team-based environment, encouraging individual growth and progression. Our primary aim is to create an inviting and enjoyable atmosphere where gymnasts can thrive without the pressure typically associated with competitive environments. We want our participants to focus on having fun, making friends, and enjoying the learning experience. Through the Futures Leagues Program, we hope to see our gymnasts smile, be happy, and celebrate their achievements, big or small.

PROGRAM DESCRIPTION

NINJA FOCUS

5years - 14years

Ninja is an exciting class that incorporates Gymnastics, Parkour and 'Ninja Warrior' progressions using a range of gymnastics apparatus in Ninja Warrior like obstacle courses.

Each class works on developing a skill set that is performed throughout each ninja circuit, enhancing strength and fitness, flexibility and coordination. The best part of our Ninja Gym program is the immediate ability to achieve goals, every participant will leave knowing they did something they didn't think they could - and they'll want to do it again! THIS PROGRAM IS COOL!!!

PARKOUR

10-16 years plus

Parkour is an artistic program which sees athletes attempt to get from point A to point B in the most fluid way possible. With and without using assisting equipment, the athlete uses challenges in the fastest and most efficient way possible to showcase a list of skills. Using parkour artistry, it uses skills like saltos, flips and twists to add variety and artistry to the art.

Kids must start with Ninja, then progress to Beginner Parkour and as their skill progresses they will progress through our program.
